Gli utensili realizzati in lega beryllio-coppa (Cu-Be) in uso devono essere usati in ambienti
 non protetti da esplosioni e non appropriati per l'uso in ambienti non protetti.

L'uso di questi utensili in ambienti non protetti può provocare lesioni.

These specialized tools cannot be used in contact with explosives or with devices that function
 in explosive

Alloys (Cu-Be) used with the copper-beryllium alloy (Cu-Be) are not suitable for use in
 and only designed for use.
